

Joint Government and Industry Pipeline R&D Forum

Charge to Track Session Participants

Jeff Wiese
Program Development Director
Office of Pipeline Safety

Workshop Goals

- Develop a full articulation of pipeline safety challenges
- Develop a common understanding of the myriad existing pipeline-focused R&D programs in both public and private sector
- Ferret out any important pipeline R&D gaps
- Provide experts forum to promote knowledge and make important connections

Facilitator/Track Charge

- Debate, endorse, or expand “challenges”
- Listen to presentations and review matrix
- Develop an “informed” R&D gap analysis
 - ◆ Identify topics / technologies
 - ◆ Consensus: Y / N
 - ◆ Rationale / practicality
- Prepare Plenary presentation

Facilitator/Track Charge

- Use color-code on your badge to direct you to your track session
 - ◆ New Construction ... (**green**)
 - ◆ Prevention (**red**)
 - ◆ Detection / Assessment (**yellow**)
 - ◆ Mitigation and Repair (**orange**)
 - ◆ Facilities (**blue**)
- Presenters: see your facilitators!
